Course Title: Introduction to the Threat Intelligence Lifecycle

### **Description:**

The Threat Intelligence lifecycle is the planning, collecting, processing, analyzing, and disseminating of information to help mitigate potential attacks and harmful events by threat actors.

### **Objectives:**

In this course, you will learn to:

- Describe the different phases of the Threat Intelligence lifecycle
- Explain the levels of information
- Identify different intelligence data sources
- Explain procedures and techniques used to process and analyze information
- Discuss distributing intelligence to different audiences

### **Duration:**

16 Hrs

### **Topics:**

1. Planning and Direction  
2. Collection  
3. Data Sources  
4. Processing  
5. Analysis and Production  
6. Dissemination

### **Audience:**

Any student interested in the fundamentals of the Threat Intelligence Lifecycle
